¹ Less than one-tenth of one per cent.

TABLE IV. — Debt Transactions for 1930 Classified by Character of Obligation.

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 280), or payments to counties on account of debt incurred for bridge purposes. For this reason the amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 144 to 263, under the section "Municipal Indebtedness."

	Towns (Population under 5,000)	INCURRED					CANCELLED

The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, May 1, 1933.

As Commissioner of Corporations and Taxation, I submit herewith the Twenty-sixth Annual Report on the Statistics of Municipal Finances of the cities and towns of the Commonwealth for the financial year 1931. This report was prepared under the immediate direction of Mr. Theodore N. Waddell, Director of Accounts in the Department, and contains data relative to the finances of the municipalities of the Commonwealth, together with tabulations compiled from the returns made by the several city and town officials.

HENRY F. LONG,
Commissioner of Corporations and Taxation.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF MUNICIPAL FINANCES—1931

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,
State House, Boston.*

SIR:—I submit herewith the Twenty-sixth Annual Report on the Statistics of Municipal Finances, covering the years ending between November 30, 1931, and January 31, 1932.

This report has been prepared on the same general plan as previous reports, and makes available comparable figures for all who are interested in governmental receipts and expenditures. A comparison of the data in this report with that given in the reports of previous years will show very definitely the trend and the need of governmental efficiency and economies.

Referring to the tables "Revenue for Current Charges" and "Current Charges against Revenue" which follow, it will be noted that receipts from revenue for current charges have been reduced from \$294,544,521 to \$290,523,610, a reduction of \$4,020,911. Receipts from taxes show a decrease of \$7,787,276. The loss of revenue from taxes was offset partly by the distribution of gasoline taxes to cities and towns by the Commonwealth which is reflected in the increase of \$3,120,193 in grants and gifts for expenses. Departmental revenue shows an increase of \$1,764,401, this increase being due principally to the return to the cities and towns by the Boston Elevated Street Railway Company of \$1,409,253 which had been advanced by the cities and towns in previous years to cover the deficit in the operation of the Boston Elevated Street Railway Company.

Of the current charges against revenue, general government shows a decrease of \$159,956, or 1.43 per cent, but the total expense for this function is still 5.32 per cent over that for 1929; protection of persons and property shows a decrease of \$294,367, or 0.79 per cent; highways, \$463,686, or 1.95 per cent; recreation, \$562,270, or 7.64 per cent; public service enterprises, \$274,063, or 1.70 per cent; cemeteries, \$30,941, or 2.09 per cent; and interest, \$402,808, or 2.06 per cent.

The following functions show increases in current charges: health and sanitation, \$102,682, or 0.54 per cent; charities, \$9,699,980, or 44.28 per cent; soldiers' benefits, \$602,649, or 25.12 per cent; schools, \$549,320, or 0.72 per cent; libraries, \$90,090, or 2.22 per cent; pensions, \$287,128, or 7.05 per cent; unclassified, \$351,928, or 10.65 per cent; administration of trust funds, \$6,644, or 3.24 per cent; and debt, including transfers to sinking funds, \$1,217,378, or 4.30 per cent.

The total current charges against revenue for 1931 show an increase over the previous year of \$10,719,708. As mentioned above, several of the functions show a decrease over the previous year, but of those which show an increase, the increases, with the exception of charities and soldiers' benefits, are less than in normal years. The figures indicate clearly that there has been a curtailment in activities, but the increase in debt charges is a direct result of the free borrowing noted in my previous report. It will be noted that the increase in welfare expenses is about \$20,000 less than the increase in the total current charges against revenue.

In the tables in this report, the transactions for the city of Cambridge, for the first time, are for the fiscal year ending December 31 instead of March 31 as formerly. This shortened year causes the expenditures reported to be less than in other cities of similar size, but, in adjusting the financial year, the legislative act provided that the amount of estimated saving in current charges by a shortened year should be levied and appropriated for school buildings and other permanent improvements of which the city was in need, thereby avoiding the incurrence of debt by the city which otherwise would have to be done.

A comparison of revenue for current charges and current charges against revenue

for the years 1930 and 1931 for all cities and towns, together with the percentage each class of receipts bears to the total receipts, and the cost of each function of government as compared with total expenditures, as well as the outlays for these years, will be found in the following tables:

Revenue for Current Charges.

CLASSIFICATION.	1930	1931	PERCENTAGES	
			1930	1931
Taxes	\$235,561,441	\$227,774,165	79.97	78.40

The tables on pages x to xiii showing revenue for current charges, current charges against revenue, and excess or deficiency of revenue are prepared from returns which are made upon a cash basis. Under normal conditions, such returns, if considered for a period of years, give a true picture of the methods of financing the activities of the municipalities.

Expenditures for outlays are not included in current charges against revenue. Although a portion of these expenditures may have been financed from revenue sources, in reality they have been financed mostly from non-revenue funds. Outlays include expenditures for any work of construction for public improvement or additional equipment which increases the visible assets of the municipality. The line of demarcation between current charges against revenue and outlays is admittedly often exceedingly difficult to draw; generally, however, if the improvement or equipment will last for several years, or is an object for which a loan might be issued under our indebtedness statute, the cost of the same may properly be regarded as an outlay.

THE DEBT BURDEN.

The net funded or fixed debt of all municipalities at the close of the year 1931 was \$316,650,623, an increase over the preceding financial year of \$14,940,516, or 4.95 per cent. The assessed valuation of taxable property decreased \$121,084,408, or 1.60 per cent. The debt figures for the close of the financial year 1931 should not be confused with those previously reported for the calendar year 1931. On page 2 of this report will be found the date of the fiscal year ending of the cities. In all towns the fiscal year ends on December 31.

The total net funded or fixed debt January 1, 1933, was \$311,666,745, a decrease of \$4,817,854 over January 1, 1932, or 1.52 per cent. In this connection, I would call attention to debt incurred for traffic tunnel in the city of Boston of \$5,950,000, this being an extraordinary project. The actual decrease of indebtedness for ordinary purposes was, therefore, more than appears. For the cities the net funded or fixed debt was \$261,265,745, a decrease of \$443,171, or 0.17 per cent; for the towns over 5,000 population it was \$38,843,680, a decrease of \$3,201,114, or 7.61 per cent; for towns under 5,000 population, \$11,557,320, a decrease of \$1,173,569, or 9.22 per cent.

Loans in anticipation of revenue of 1932, outstanding January 1, 1933, aggregate \$63,144,183, but to meet these loans there were unpaid taxes of 1932 amounting to \$77,410,865. The statute which provides for the assessment of property as of April 1 for taxes payable October 15 necessarily requires that in most cases there should be temporary loans in anticipation of the collection of taxes. These loans are usually for a short period of time and under the general laws cannot exceed one year.

The policy of requiring an initial contribution from revenue as a condition precedent to borrowing has served to retain a relatively low ratio of debt to valuation, but even with these restrictions the debt has increased slightly while the assessed valuation of taxable property has decreased. The valuation of taxable property shows a decrease of \$121,084,408 from the amount assessed in 1930. With the exception of the year 1917, when intangible property was eliminated from the valuation list because of the income tax law, there has been no decrease in valuation since 1910 until the year 1931, but further reductions are certain to follow. It will be necessary for corresponding reductions to be made in the long term debt, as taxes on real estate are the chief source of revenue and real estate cannot bear any additional burden. The present emergency, which calls for such large welfare expenditures, does, however, justify the spreading of a portion of these costs over a term of years by means of borrowing, at least to the extent that we liquidate our present funded or fixed debt through the serial payment plan.

The wisdom of conservative borrowing and the planning of necessary improvements during more prosperous times has, I believe, been thoroughly demonstrated, for while Massachusetts has felt this depression more than any one could possibly have foreseen yet we do find our finances in far better condition than other sections of the country. The present problem is that of public welfare, and this will be solved by the decision of an educated citizenship as to what service is to be rendered at public expense, and by better municipal planning for the future than has been provided in the past.

THE CERTIFICATION OF TOWN AND DISTRICT NOTES.

The amount of borrowing by towns by the issuance of town notes is constantly increasing. The data collected for use in connection with this report and the records of town notes issued are being used constantly throughout the year by investors in municipal securities. Information relative to tax levies, tax rates, uncollected taxes, outstanding indebtedness, both funded or fixed and temporary, are proving to be of great service to investors and the general public.

The number of notes certified and the amount of loans represented by them since the town note act took effect on January 1, 1911, are shown in the following table:

YEARS.	REVENUE AND OTHER TEMPORARY LOANS		GENERAL LOANS		TOTAL	
	Number	Amount	Number	Amount	Number	Amount
1911 . . .	983	\$8,974,214.59	433	\$737,349.43	1,416	\$9,711,564.02

¹ To May 1.

THE AUDITING OF ACCOUNTS AND INSTALLATION OF ACCOUNTING SYSTEMS.

During the past year systems have been installed in four cities and towns, 205 audits have been made, and assistance has been rendered in one other town. Systems have now been installed in 213 cities, towns and districts.

The work of the examiners in making the audits and installing systems of accounts has been done in a most satisfactory manner. Much time is necessarily devoted to assisting and advising the officials as to the better way of meeting some of their problems, and from the many requests received for assistance of this kind, it is very evident that the aid rendered is appreciated by city and town officials. The general advisory work being done is, in my opinion, most important for it assures greater cooperation with this department, better budgets and better accounting, resulting in greater economy and efficiency in government.

The force of examiners has not been increased and no additions are contemplated, as the present force can make an examination of every city and town, with but few exceptions, as often as required by the statute.

CONCLUSION.

I wish to express my appreciation of the conscientious services rendered by the entire force, especially to Mr. Edward H. Fenton, Deputy Director and Chief Accountant, in charge of the auditing and installation of accounting systems, and to Miss Hannah M. Varney, in general charge of the clerical work and the preparation of the tabulations of this report.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

STATE HOUSE, Boston, May 1, 1933.

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 39 cities; (II) the 83 towns having a population of 5,000 or over; and (III) the 233 towns having a population of less than 5,000. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

PART I. — CITIES.

This part is subdivided as follows: — (A) Summary of Financial Transactions; (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 39 cities of the Commonwealth (pp. 4-27). The several cities, with the exception of Boston, which has financial transactions of such magnitude as to warrant presentation independently of the other cities, are arranged, for purposes of comparison, according to the population of the United States Census of 1930, typographical considerations making it necessary to adopt an arbitrary grouping of four municipalities to a page.

(B) *Receipts from Revenue.*

Table II (pp. 30, 31) shows receipts from *General* and Table III (pp. 32, 33) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges, departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 34-42) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Unclassified receipts are excluded because of their diversity. This table is self-explanatory and is suggestive as disclosing the varying degree to which different cities have discovered opportunities for revenue from this source.

Table V (p. 43) is a tabulation of interest receipts classified so as to show the amount of interest derived from money on deposit, from deferred taxes and special assessments, from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 44) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 39 cities.

It is of interest to note that of the total revenue receipts of the 39 cities of the Commonwealth for the year covered by the report, 80.8 per cent is from general revenue sources and 19.2 per cent from commercial revenue sources. The revenue receipts of the city of Boston are 80.3 per cent from general and 19.7 per cent from commercial sources.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to X, inclusive (pp. 46-68), exhibit gross payments, classified in detail, on account of the maintenance cost, or what are sometimes called the "current expenses" of the various departments or kinds of municipal services. Interest payments are similarly but separately shown, not only because it is desirable to exhibit this item of expense independently, but because interest is properly a capital rather than a departmental charge.

It would be most interesting and significant, too, if we could calculate the net cost of the several municipal services so as to show the actual burden of each upon the taxpayer, and it might be supposed that such a figure could be obtained simply by deducting the earnings of a department from the amount necessary to maintain it; but there is as yet on the part of accounting authorities no clear or general understanding as to what receipts should be treated as departmental earnings, thereby constituting a proper offset to expense, and what, on the other hand, being in the nature of an assessment upon the taxpayer rather than a charge upon the citizen, cannot

be legitimately deducted from a gross cost figure in order to obtain net cost of maintenance.

In comparing certain departmental expenses, large differences will occasionally be noted for the same class of service, the reason for which is not sufficiently apparent to warrant our attempting to assign it without more or less exhaustive inquiry. Meanwhile the differences, even for a single year, which may be noted in these comparative tables for cities of approximately the same size should stimulate local discussion for the purpose of ascertaining whether a satisfactory explanation can be found.

From the interest table (p. 68) we note that the total interest burden of the 39 cities for the year covered by the report was \$15,725,739.11, of which \$8,333,434.91, or 53.0 per cent, was interest on the general debt; \$1,503,779.72, or 9.6 per cent, was interest on revenue and other temporary loans; and the remaining 37.4 per cent of the total interest payments was for debt on account of public service enterprise and cemetery loans, metropolitan assessments for sewer, park, and water purposes, and miscellaneous debt not specified. It is of interest to note that the total assessment on the city of Boston for interest on metropolitan debts was \$1,717,018.84, or 23.0 per cent of the total interest burden of the city (see also payments to the state sinking and loan funds on page 73). Over 44 per cent of Somerville's total interest burden is on account of metropolitan assessments.

(D) *Indebtedness.*

Table XI (p. 70) shows the outstanding indebtedness classified by the character of the obligation; Table XII (p. 71), the relation of indebtedness to valuation, the valuation figures as reported to the Tax Commissioner being used; Table XIII (p. 72), the debt transactions for 1931, classified according to the character of the obligation; Table XIV (p. 73) shows separately the payments to the state sinking and loan funds; and Table XV (p. 74) shows the method of meeting debt requirements from taxation.

A tabulation which gives figures for the funded or fixed debt and the net debt only of a municipality does not, however, tell the whole story of the debt burden. Revenue loans, it is true, are not included in reckoning the limit of indebtedness under the law; but though they are temporary transactions with uncollected taxes presumably as an offsetting asset, they constitute in fact a permanent burden, since they are as a class annually recurrent. Loans in anticipation of bond issues, although of a temporary character, are in reality *fixed* debt (having no assets as an offset) and in Table XII are included in the total of funded or fixed debt and reckoned in determining the net debt. Table XI (p. 70) has therefore been prepared for the purpose of showing the aggregate outstanding indebtedness, including not only the funded or fixed debt, but also temporary debt and warrants or orders unpaid.

The net funded or fixed debt is found by deducting from the total funded or fixed debt the amount which has been set aside in sinking funds to pay the debt when due. Funded or fixed debt does not include revenue loans or outstanding warrants or orders, because these debts are considered temporary, and it is assumed that such obligations are offset by theoretically "quick" assets. Thus, revenue loans are offset by uncollected taxes, and warrants or orders by cash on hand.

The table of debt transactions (p. 72) is of interest as showing the amount of debt incurred during the fiscal year 1931 for the several purposes specified, and the amount of debt cancelled during the year, excepting payments to the state sinking and loan funds on account of metropolitan assessments for sewer, park, and water purposes, and payments to counties on account of debt incurred for bridge purposes. These payments represent the cancellation of a portion of the city's debt incurred by the State and County on their account, and for this reason are excluded.

Included in the term "General Loans" in the table of debt transactions are not only loans issued for general purposes, but likewise all loans whether specified as for school, fire, or police, etc., purposes, since these could not be shown separately by figures which would be comparable.

Payments to the state sinking and loan funds on account of miscellaneous items and metropolitan sewer, park, and water assessments are shown separately in Table XIV (p. 73). The aggregate amount thus paid for the 39 cities in 1931 was \$1,306,050.57 of which Boston paid \$835,843.66, or 64.0 per cent.

Table XV (p. 74) is of interest as showing the relative use by the 39 cities of Massachusetts of the two methods of meeting their debt obligations. The payments to

the state sinking and loan funds on account of miscellaneous items and metropolitan assessments are included in this table in order to show the annual debt charges against revenue, but they are *assessments* and not properly charged as a serial or municipal sinking fund payment.

(E) *Cash Balances.*

Table XVI (p. 76) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1931.

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 80-125), are similar in form and detail to those given for the cities in Part I, the towns being arranged according to population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The tables in the division devoted to *Indebtedness* (II, III, IV, V, and VI, on pp. 128-135, inclusive) are similar to those given for the cities, and the comments made in the latter connection are likewise applicable to the towns. The statements of *Cash Balances* (pp. 138, 139) for the towns are also self-explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances. They are presented on the same plan as the towns of over 5,000 population, which are shown in Part II.

ANALYSIS TABLES

- I. Excess or Deficiency of Revenue
 - A. Cities
 - B. Towns over 5,000 Population
 - II. Revenue Charges for Maintenance, Interest, and Debt Requirements

¹ Includes population of 65 towns having no funded debt.

² Includes valuation of 65 towns having no funded debt.

The following towns under 5,000 population showed no funded debt outstanding on January 1, 1933:

Ashfield	Cheshirefield	Florida	New Salem	Royalston	Westampton
Barre	Chilmark	Freestown	Oakham	Savoy	West Newbury
Becket	Colrain	Georgetown	Orleans	Shelburne	West Tisbury
Berlin	Dana	Geenold	Otis	Shelburne	Westwood
Barnardston	Dighton	Granby	Peter	Shuttsbury	Williamsburg
Bolton	Eastham	Mendon	Petersham	Shuttsbury	Windsor
Boxborough	Eastmont	Middlefield	Phillipsburg	Sterling	Worthington
Brimfield	Enfield	Monroe	Prescott	Upton	
Charlemont	Erving	Mount Washington	Rochester	Wales	
		New Braintree	Rowe	Wendell	

PART I

CITIES

Fiscal Years of Cities.

The data given in the tables in Part I are for fiscal years ending in the several cities, as follows:

CITIES.	Fiscal Year Ending	Pages of Report
ATTLEBORO	Dec. 31, 1931	20, 21
BEVERLY	Dec. 31, 1931	18, 19
BOSTON	Dec. 31, 1931	4, 5
BROCKTON	Nov. 30, 1931	10, 11
CAMBRIDGE	Dec. 31, 1931	6, 7

TABLE XII. — *Relation of Indebtedness to Valuation — 1931.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, including motor vehicles, as of April 1, 1931, together with the supplemental assessment of December, 1931.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans and warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII.

TABLE III. — *Relation of Indebtedness to Valuation — 1931.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, including motor vehicles, as of April 1, 1931, together with the supplemental assessment of December, 1931.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans such as found in Norwood (see footnote on Table II), and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

TOWNS. (Population over 5,000)	Popu- lation of 1930	Percent- age of Net Debt of Valua- tion	Valuation of 1931 including Motor Vehicles	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt

TABLE IV. — *Debt Transactions for 1931 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 134), or payments to counties on account of debt incurred for bridge purposes. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 80 to 125, under the section "Municipal Indebtedness."

The following towns over 5,000 population made no sinking and loan fund payments in 1931 to the State on account of deepening Neponset River and Metropolitan sewer, park and water systems:

Abington	Dartmouth	Marblehead	Rockland
Adams	Dracut	Maynard	Shrewsbury
Agawam	Easthampton	Methuen	Somerset
Amesbury	Easton	Middleborough	Southbridge
Amherst	Fairhaven	Milford	South Hadley
Andover	Foxborough	Millbury	Spencer
Athol	Framingham	Montague	Tewksbury
Auburn	Franklin	Natick	Uxbridge
Barnstable	Grafton	North Andover	Ware
Billerica	Great Barrington	North Attleborough	Wareham
Bridgewater	Greenfield	Northbridge	Webster
Chelmsford	Hudson	Orange	Westborough
Clinton	Ipswich	Palmer	West Springfield
Concord	Ludlow	Plymouth	Whitman
Danvers	Mansfield	Randolph	Winchendon

¹ Includes \$2,300 anticipation of highway reimbursement from State and county.

TABLE III. — *Relation of Indebtedness to Valuation — 1931.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, including motor vehicles, as of April 1, 1931, together with the supplemental assessment of December, 1931.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue and other temporary loans and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

There are 64 towns which showed no funded or fixed debt.

Towns. (Population under 5,000)	Popula- tion of 1930	Percent- age of Net Debt of Valua- tion	Valuation of 1931 including Motor Vehicles	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt
1 Hanover	2,808	10.7	\$3,933,701	\$422,000.00	—	\$422,000.00

TABLE IV. — *Debt Transactions for 1931 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 280), or payments to counties on account of debt incurred for bridge purposes. For this reason the amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 144 to 263, under the section "Municipal Indebtedness."

¹ Deepening Neponset River.² Grade Crossing.

The following towns under 5,000 population made no sinking and loan fund payments in 1931 to the State on account of deepening Neponset River and Metropolitan sewer, park and water systems:

Acton	Enfield	Medfield	Sandwich
Acushnet	Erving	Medway	Savoy
Alford	Essex	Mendon	Scituate
Ashburnham	Falmouth	Merrimac	Seekonk
Ashby	Florida	Middlefield	Sheffield
Ashfield	Freetown	Middleton	Shelburne
Ashland	Gay Head	Millis	Sherborn
Avon	Georgetown	Millville	Shirley
Ayer	Gill	Monroe	Shutesbury
Barre	Goshen	Monson	Southampton
Becket	Gosnold	Monterey	Southborough
Bedford	Granby	Montgomery	Southwick
Belchertown	Granville	Mount Washington	Sterling
Bellingham	Greenwich	Nantucket	Stockbridge
Berkley	Groton	New Ashford	Stow
Berlin	Groveland	New Braintree	Sturbridge
Bernardston	Hadley	Newbury	Sudbury
Blackstone	Halifax	New Marlborough	Sunderland
Blackford	Hamilton	New Salem	Sutton
Bolton	Hampden	Norfolk	Swansea
Bourne	Hancock	Northborough	Templeton
Boxborough	Hanover	North Brookfield	Tisbury
Boxford	Hanson	Northfield	Tolland
Boylston	Hardwick	North Reading	Topsfield
Brewster	Harvard	Norton	Townsend
Brimfield	Harwich	Norwell	Truro
Brookfield	Hatfield	Oak Bluffs	Tyngsborough
Buckland	Hawley	Oakham	Tyringham
Burlington	Heath	Orleans	Upton
Carlisle	Hinsdale	Otis	Wales
Carver	Holbrook	Oxford	Warren
Charlemont	Holden	Paxton	Warwick
Charlton	Holland	Pelham	Washington
Chatham	Holliston	Pembroke	Wavland
Cheshire	Hopedale	Pepperell	Wellfleet
Chester	Hopkinton	Peru	Wendell
Chesterfield	Hubbardston	Petersham	Wenham
Chilmark	Huntington	Phillipston	West Boylston
Clarksburg	Kingston	Plainfield	West Bridgewater
Colrain	Lakeville	Plainville	West Brookfield
Conway	Lancaster	Plympton	Westford
Cummington	Lanesborough	Prescott	Westhampton
Dalton	Lee	Princeton	Westminster
Dana	Leicester	Provincetown	West Newbury
Deerfield	Lenox	Raynham	Westport
Dennis	Leverett	Rehoboth	West Stockbridge

The Commonwealth of Massachusetts

DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, June 1, 1934.

As Commissioner of Corporations and Taxation, I submit herewith the Twenty-seventh Annual Report on the Statistics of Municipal Finances of the cities and towns of the Commonwealth for the financial year 1932. This report was prepared under the immediate direction of Mr. Theodore N. Waddell, Director of Accounts in the Department, and contains data relative to the finances of the municipalities of the Commonwealth, together with tabulations compiled from the returns made by the several city and town officials.

HENRY F. LONG,
Commissioner of Corporations and Taxation.

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF MUNICIPAL FINANCES—1932

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,*
State House, Boston.

SIR:—I submit herewith the Twenty-seventh Annual Report on the Statistics of Municipal Finances, covering the years ending between November 30, 1932 and January 31, 1933.

This report has been prepared on the same general plan as previous reports, and makes available comparable figures for all who are interested in governmental receipts and expenditures. A comparison of the data in this report with data given in the reports of previous years will show very definitely the trend of governmental costs and the need of efficiency and economies.

Referring to the tables "Revenue for Current Charges" and "Current Charges against Revenue" which follow, it will be noted that receipts from revenue for current charges have been reduced from \$290,523,610 to \$284,173,461, a reduction of \$6,350,149. Receipts from taxes show a decrease of \$12,622,707. Receipts from privileges, made up largely from the motor vehicle excise tax, show a decrease of \$1,446,813. The loss of revenue from taxes was offset partly by the distribution of gasoline taxes to cities and towns by the Commonwealth which is reflected in the increase of \$7,756,372 in grants and gifts for expenses. Departmental revenue shows an increase of \$1,753,618. The increase in departmental collections is really much greater since there is no receipt from the Boston Elevated Street Railway Company in 1932 to compare with the \$1,409,253 received in 1931. Public service enterprises show a decrease of \$1,242,591.

Of the current charges against revenue, general government shows a decrease of \$130,312, or 1.18 per cent. The total expense for this function, in spite of reductions in the past two years, is still 4.08 per cent greater than in the year 1929. Protection of persons and property shows a decrease of \$1,681,666, or 4.59 per cent; health and sanitation, \$281,197, or 1.50 per cent; highways, \$2,829,305, or 12.16 per cent; schools, \$3,424,617, or 4.50 per cent; libraries, \$265,113, or 6.39 per cent; recreation, \$959,403, or 14.13 per cent; public service enterprises, \$1,197,741, or 7.60 per cent; and cemeteries, \$126,772, or 8.75 per cent.

The following functions show increases in current charges: charities, \$16,078,669, or 50.88 per cent; soldiers' benefits, \$2,533,048, or 84.40 per cent; pensions, \$390,515, or 8.96 per cent; unclassified, \$707,520, or 19.35 per cent; and administration of trust funds, \$10,414, or 4.92 per cent. Interest shows an increase of \$2,973,036, or 15.55 per cent, and debt charges, including transfers to sinking funds, \$1,511,869, or 5.13 per cent.

The total current charges against revenue for 1932 show an increase over the previous year of \$13,308,945, or 4.66 per cent. The maintenance charges, aside from interest and debt, show an increase of \$8,824,040, but it will be noted that the increase in charities and soldiers' benefits alone amounted to \$18,611,717, which shows that economies have been effected in other departments to the amount of nearly \$10,000,000. The increase in unclassified payments is caused by the Boston Elevated deficiency assessed to cities and towns amounting to \$1,783,600.

A comparison of revenue for current charges and current charges against revenue for the years 1931 and 1932 for all cities and towns, together with the percentage each class of receipts bears to the total receipts, and the cost of each function of government as compared with total expenditures, as well as the outlays for these years, will be found in the following tables:

Revenue for Current Charges.

CLASSIFICATION.	1931	1932	PERCENTAGES	
			1931	1932
Taxes	\$227,774,165	\$215,151,458	78.40	75.71

TOTALS	\$72,919,122.68	\$45,654,050.74

Expenditures for outlays shown in the preceding table have been provided for largely by non-revenue funds, although a portion of the cost has been financed from revenue sources. Outlays include expenditures for any work of construction, public improvement, or additional equipment which increases the visible assets of the municipality.

The line of demarcation between current charges against revenue and outlays is admittedly often exceedingly difficult to draw; generally, however, if the improvement or equipment will last for several years, or is an object for which a loan might be issued under our indebtedness statute, the cost of the same may properly be regarded as an outlay. It will be noted that the expenditures for outlays have been reduced by \$27,265,072 from the outlays shown for the year 1931.

The tables showing revenue for current charges, current charges against revenue, and excess or deficiency of revenue are shown on pages x to xiii. A deficiency of revenue collections in the year 1932 is shown in 36 of the 39 cities, making a net deficiency for the entire group of cities of \$15,410,111. There is also a deficiency in 39 of the 83 towns over 5,000 in population. This is offset by the excess of revenue in the remaining 44 towns, so that for the entire group of large towns there remains an excess of revenue collections of \$383,499. The returns from which these tables are prepared are made upon a cash basis. Under normal conditions, such returns, considered over a period of years, give a true picture of the methods of financing the activities of the municipalities. For the year 1932 conditions were so abnormal that the revenues receivable were greatly in excess of the cash collections, so that to the extent of this deficiency in collections, it was necessary for many municipalities to draw on the surpluses accumulated during previous years.

THE DEBT BURDEN.

The net funded or fixed debt of all municipalities at the close of the year 1932 was \$311,892,390, a decrease from the preceding financial year of \$4,758,233, or 1.50 per cent. The assessed valuation of taxable property decreased \$232,781,231, or 3.13 per cent. The debt figures reported here for the close of the financial year 1932 should not be confused with figures previously reported for the calendar year 1932. On page 2 of this report will be found the date of the fiscal year ending of the cities. In all towns the fiscal year ends on December 31.

The total net funded or fixed debt January 1, 1934, which is shown in the tables on pages xxi to xxvii, was \$316,745,605, an increase of \$5,078,860 over the debt on January 1, 1933, or 1.63 per cent. Of this amount, \$4,246,356 represents an increase in general debt. Included in the general debt were Emergency Finance loans issued on account of tax titles under the provisions of Chapter 49 of the Acts of 1933, amounting on December 31, 1933, to \$5,626,564.65; Municipal Relief loans issued under the provisions of Chapter 307, Acts of 1933, amounting to \$12,212,053.23; and the public welfare loan of \$4,100,000, issued under the provisions of Chapter 159 of the Acts of 1933. The aggregate of the relief loans was \$16,312,053.23, and the net reduction in loans for general permanent improvements was \$17,692,261.62, so that if we were to exclude from the general debt the tax title loans, which are offset by thoroughly good assets, we should have an actual reduction in general debt of \$1,380,208.39.

The net increase in public service enterprise loans was only \$832,503. The debt for traffic tunnel in the city of Boston aggregating \$17,200,000, of which \$4,200,000 was issued in 1933, is included in the total public service enterprise debt.

For cities, the total of the net funded or fixed debt of all classes was \$270,188,361, an increase of \$8,922,616, or 3.42 per cent; for the towns over 5,000 population the debt was \$35,851,805, a decrease of \$2,991,875, or 7.70 per cent; for the towns under 5,000 population the debt was \$10,705,439, a decrease of \$851,881, or 7.37 per cent.

Loans in anticipation of revenue of 1933 and prior years, outstanding January 1, 1934, aggregated \$62,912,671, but to meet these loans there were unpaid taxes of 1933 amounting to \$74,248,791; unpaid taxes of 1932 of \$14,023,932; and unpaid taxes of prior years of \$2,285,260, making a total of \$90,557,983. The statute which provides for the assessment of property as of April 1 for taxes payable October 15 makes it necessary in most cases that there shall be temporary loans in anticipation of the collection of taxes. These loans are usually for a short period of time, which, under the general laws, cannot exceed one year. Under Chapter 3 of the Acts of 1933, some loans were extended for an additional six months.

The tables on pages xix and xx show the total debt, the sinking funds and the net funded or fixed debt for each year from 1910 to 1932, the assessed valuation, and the yearly increase or decrease in valuation and debt. There is also shown the ratio of net funded or fixed debt to assessed valuation for each year. For the first time since

1918 the total net funded debt at the close of the year 1932 showed a decrease from the amount at the end of the previous year. The percentage of decrease was 1.50 per cent, but the assessed valuation for 1932 showed a greater percentage of decrease, so that the ratio of net funded or fixed debt to assessed valuation for the year 1932 is greater than the ratio for the year 1931.

It will be noted that the ratio of net funded or fixed debt to valuation of 4.33 per cent is higher than at any time since the publication of these reports.

THE CERTIFICATION OF TOWN AND DISTRICT NOTES.

The amount of borrowing by towns by the issuance of town notes is constantly increasing. The data collected for use in connection with this report and the records of town notes issued are being used constantly throughout the year by investors in municipal securities. Information relative to tax levies, tax rates, uncollected taxes, outstanding indebtedness, both funded or fixed and temporary, are proving to be of great service to investors and the general public.

The number of notes certified and the amount of loans represented by them since the town note act took effect on January 1, 1911, are shown in the following table:

YEARS.	REVENUE AND OTHER TEMPORARY LOANS		GENERAL LOANS		TOTAL	
	Number	Amount	Number	Amount	Number	Amount
1911 . . .	983	\$8,974,214.59	433	\$737,349.43	1,416	\$9,711,564.02

¹ To June 1.

THE AUDITING OF ACCOUNTS AND INSTALLATION OF ACCOUNTING SYSTEMS.

During the past year one system of accounts has been installed bringing the total to 214 cities, towns and districts now operating under the uniform system of accounts. Audits have been made in 197 cities and towns during the year and assistance rendered to accounting and financial officers in 13 other towns.

The work of making the audits has been more complicated owing to the conditions under which municipalities are operating. Much of the work of the accountants of this Division is necessarily devoted to assisting and advising the officials as to the best way of meeting some of their problems and the reports received from officials, both by letter and verbally, indicate that the services of our accountants have been helpful and appreciated.

To the accountants engaged in this branch of the work I wish to express my appreciation of the efficient way in which they have performed their respective duties.

CONCLUSION.

The work of the Division has been materially increased during the past year due perhaps to the unprecedented financial situation which confronted our cities and towns. The municipality necessarily reflects home conditions, and feeling the need for sacrifice

in home service naturally expected the same in public service. The interest displayed in the public service by the numerous associations as well as individuals insures, I believe, a better and more economical government.

This report, when compared with other similar reports, shows that economies have been practiced, but whether they have been carried to such an extent as to cause great curtailment in service, which is very necessary, is of course a debatable question; however, I am confident that our public officials have cooperated in every way to give the best possible within the means at hand, and the taxpayer's position has received more consideration than at any time during my period of public service. At the same time our city and town financial structure has been kept in a sane and sound condition.

The Division has been pressed, not only to give increased service both in the field and office, but also, in addition, has suffered a very great loss in the death of Mr. Edward H. Fenton, Chief Accountant and Assistant Director, who gave unstintingly the best years of his life to the work of the Division and did his work so well as to leave a record of achievements that will not be forgotten either by his associates or the public officials with and for whom he worked for twenty-five years.

I wish to express my deep appreciation of the valued suggestions and support given by Mr. Henry F. Long, Commissioner of Corporations and Taxation; to the entire force of the Division and especially to Miss Hannah M. Varney, in general charge of the clerical work and the preparation of the tabulations of this report.

Respectfully submitted,

THEODORE N. WADDELL,

Director of Accounts.

STATE HOUSE, Boston, June 1, 1934.

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 39 cities; (II) the 83 towns having a population of 5,000 or over; and (III) the 233 towns having a population of less than 5,000. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

PART I. — CITIES.

This part is subdivided as follows:— (A) Summary of Financial Transactions; (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 39 cities of the Commonwealth (pp. 4-27). The several cities, with the exception of Boston, which has financial transactions of such magnitude as to warrant presentation independently of the other cities, are arranged, for purposes of comparison, according to the population of the United States Census of 1930, typographical considerations making it necessary to adopt an arbitrary grouping of four municipalities to a page.

(B) *Receipts from Revenue.*

Table II (pp. 30, 31) shows receipts from *General* and Table III (pp. 32, 33) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges, departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 34-42) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Unclassified receipts are excluded because of their diversity. This table is self-explanatory and is suggestive as disclosing the varying degree to which different cities have discovered opportunities for revenue from this source.

Table V (p. 43) is a tabulation of interest receipts classified so as to show the amount of interest derived from money on deposit, from deferred taxes and special assessments,

from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 44) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 39 cities.

It is of interest to note that of the total revenue receipts of the 39 cities of the Commonwealth for the year covered by the report, 81.3 per cent is from general revenue sources and 18.7 per cent from commercial revenue sources. The revenue receipts of the city of Boston are 81.8 per cent from general and 18.2 per cent from commercial sources.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to X, inclusive (pp. 46-68), exhibit gross payments, classified in detail, on account of the maintenance cost, or what are sometimes called the "current expenses" of the various departments or kinds of municipal services. Interest payments are similarly but separately shown, not only because it is desirable to exhibit this item of expense independently, but because interest is properly a capital rather than a departmental charge.

It would be most interesting and significant, too, if we could calculate the net cost of the several municipal services so as to show the actual burden of each upon the taxpayer, and it might be supposed that such a figure could be obtained simply by deducting the earnings of a department from the amount necessary to maintain it; but there is as yet on the part of accounting authorities no clear or general understanding as to what receipts should be treated as departmental earnings, thereby constituting a proper offset to expense, and what, on the other hand, being in the nature of an assessment upon the taxpayer rather than a charge upon the citizen, cannot be legitimately deducted from a gross cost figure in order to obtain net cost of maintenance.

In comparing certain departmental expenses, large differences will occasionally be noted for the same class of service, the reason for which is not sufficiently apparent to warrant our attempting to assign it without more or less exhaustive inquiry. Meanwhile the differences, even for a single year, which may be noted in these comparative tables for cities of approximately the same size should stimulate local discussion for the purpose of ascertaining whether a satisfactory explanation can be found.

From the interest table (p. 68) we note that the total interest burden of the 39 cities for the year covered by the report was \$18,007,050.31, of which \$8,460,258.47, or 47.0 per cent, was interest on the general debt; \$3,446,653.47, or 19.1 per cent, was interest on revenue and other temporary loans; and the remaining \$6,100,138.37, or 33.9 per cent was for interest on account of public service enterprise and cemetery loans, metropolitan assessments for sewer, park, and water purposes, and miscellaneous debt not specified.

(D) *Indebtedness.*

Table XI (p. 70) shows the outstanding indebtedness classified by the character of the obligation; Table XII (p. 71), the relation of indebtedness to valuation, the valuation figures as reported to the Tax Commissioner being used; Table XIII (p. 72), the debt transactions for 1932, classified according to the character of the obligation; Table XIV (p. 73) shows separately the payments to the state sinking and loan funds; and Table XV (p. 74) shows the method of meeting debt requirements from taxation.

A tabulation which gives figures for the funded or fixed debt and the net debt only of a municipality does not, however, tell the whole story of the debt burden. Revenue loans, it is true, are not included in reckoning the limit of indebtedness under the law; but though they are temporary transactions with uncollected taxes presumably as an offsetting asset, they constitute in fact a permanent burden, since they are as a class annually recurrent. Loans in anticipation of bond issues, although of a temporary character, are in reality *fixed* debt (having no assets as an offset) and in Table XII are included in the total of funded or fixed debt and reckoned in determining the net debt. Table XI (p. 70) has therefore been prepared for the purpose of showing the aggregate outstanding indebtedness, including not only the funded or fixed debt, but also temporary debt and warrants or orders unpaid.

The net funded or fixed debt is found by deducting from the total funded or fixed

debt the amount which has been set aside in sinking funds to pay the debt when due. Funded or fixed debt does not include revenue loans or outstanding warrants or orders, because these debts are considered temporary, and it is assumed that such obligations are offset by theoretically "quick" assets. Thus, revenue loans are offset by uncollected taxes, and warrants or orders by cash on hand.

The table of debt transactions (p. 72) is of interest as showing the amount of debt incurred during the fiscal year 1932 for the several purposes specified, and the amount of debt cancelled during the year, excepting payments to the state sinking and loan funds on account of metropolitan assessments for sewer, park, and water purposes, and payments to counties on account of debt incurred for bridge purposes. These payments represent the cancellation of a portion of the city's debt incurred by the State and County on their account, and for this reason are excluded.

Included in the term "General Loans" in the table of debt transactions are not only loans issued for general purposes, but likewise all loans whether specified as for school, fire, or police, etc., purposes, since these could not be shown separately by figures which would be comparable.

Payments to the state sinking and loan funds on account of miscellaneous items and metropolitan sewer, park, and water assessments are shown separately in Table XIV (p. 73). The aggregate amount thus paid for the 39 cities in 1932 was \$1,408,834.51.

Table XV (p. 74) is of interest as showing the relative use by the 39 cities of Massachusetts of the two methods of meeting their debt obligations. The payments to the state sinking and loan funds on account of miscellaneous items and metropolitan assessments are included in this table in order to show the annual debt charges against revenue, but they are *assessments* and not properly charged as a serial or municipal sinking fund payment.

(E) *Cash Balances.*

Table XVI (p. 76) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1932.

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 80-125), are similar in form and detail to those given for the cities in Part I, the towns being arranged according to population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The tables in the division devoted to *Indebtedness* (II, III, IV, V, and VI, on pp. 128-135, inclusive) are similar to those given for the cities, and the comments made in the latter connection are likewise applicable to the towns. The statements of *Cash Balances* (pp. 138, 139) for the towns are also self-explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances. They are presented on the same plan as the towns of over 5,000 population, which are shown in Part II.

ANALYSIS TABLES

- I. Excess or Deficiency of Revenue
 - A. Cities
 - B. Towns over 5,000 Population
- II. Revenue Charges for Maintenance, Interest, and Debt Requirements
 - A. Cities
 - B. Towns over 5,000 Population

TABLE XII. — *Relation of Indebtedness to Valuation — 1932.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, including motor vehicles, as of April 1, 1932, together with the supplemental assessment of December, 1932.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans and warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII.

¹ In anticipation of highway reimbursement from State and county.

TABLE III. — *Relation of Indebtedness to Valuation — 1932.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, including motor vehicles, as of April 1, 1932, together with the supplemental assessment of December, 1932.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans such as are found in Watertown, Methuen and Westborough (see footnote on Table II), and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

TOWNS. (Population over 5,000)	Popu- lation of 1930	Percent- age of Net Debt of Valua- tion	Valuation of 1932 including Motor Vehicles	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt

82 Tewksbury . . .	5,585	0.2	4,652,467	10,625.54	—	10,625.54
83 Clinton . . .	12,817	0.1	13,662,700	7,000.00	—	7,000.00
83 Towns . . .	914,547	2.6	\$1,485,088,309	\$39,294,142.33	\$450,462.06	\$38,843,680.27

TABLE IV. — *Debt Transactions for 1932 Classified by Character of Obligation.*

NOTE. — The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 134), or payments to counties on account of debt incurred for bridge purposes. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 80 to 125, under the section "Municipal Indebtedness."

Towns. (Population over 5,000)	INCURRED				CANCELLED

TABLE III. — *Relation of Indebtedness to Valuation — 1932.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, including motor vehicles, as of April 1, 1932, together with the supplemental assessment of December, 1932.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue and other temporary loans such as is found in Berlin (see footnote on Table II) and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

There are 64 towns which showed no funded or fixed debt.

TOWNS. (Population under 5,000)	Popula- tion of 1930	Percent- age of Net Debt of Valua- tion	Valuation of 1932 including Motor Vehicles	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt

¹ Less than one-tenth of one per cent.

TABLE IV. — Debt Transactions for 1932 Classified by Character of Obligation.

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 280), or payments to counties on account of debt incurred for bridge purposes. For this reason the amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 144 to 263, under the section "Municipal Indebtedness."
